Client Background & Challenge

Client Profile

-  **Real estate e-commerce company** with property inventory of over 200 vacant land across the US
-  Property mapping website with mission to make land ownership affordable to everyone
-  No credit checks or monthly payments required for credit score evaluation
-  Based in **Taguig, Philippines** with 51-200 employees

The Challenge

What They Needed

-  Technical SEO services (on-page and off-page) for three of their companies
-  Improved online visibility and web traffic
-  Comprehensive SEO approach beyond basic content creation

Previous Experience

-  Previously hired SEO agencies that weren't technically skilled
-  Lacked a team that could understand their business from all SEO angles

Solution Overview & Methodology

Methodology

-  **Comprehensive SEO strategy** combining technical SEO, content marketing, and link building
-  **Data-driven approach** with regular KPI monitoring and analysis
-  **Collaborative process** with weekly updates and calls for transparency
-  **Customized approach** for each of the three company websites
-  **Dual focus** on immediate improvements and long-term sustainable growth

Approach

- 1** Initial technical audit to identify SEO issues and opportunities
- 2** Keyword research tailored to real estate industry and target audience
- 3** Content creation (1,000+ word blogs) aligned with client's voice and brand
- 4** Technical SEO improvements: site structure, internal linking, sitemap optimization
- 5** Off-page SEO through quality backlinking and strategic guest posting
- 6** Continuous monitoring and optimization based on performance data

Detailed Services Provided

Technical SEO

-  Site structure optimization
-  Sitemap fixes (removing irrelevant pages)
-  Internal linking improvements
-  Image optimization (adding missing context)
-  Technical recommendations for better Google indexing

3 Websites optimized

Content Marketing

-  Blog content creation (**1,000+ words** per article)
-  Keyword research and implementation
-  Content aligned with client's voice and brand
-  Content for multiple company websites
-  Regular performance monitoring and optimization

4 Blog articles per month

Link Building

-  Quality backlink acquisition
-  Guest posting on relevant websites
-  Building credibility through authoritative links
-  Strategic outreach to industry influencers
-  Continuous link profile monitoring and improvement

Timeline

Feb 2024	Project initiation
Mar 2024	Initial technical fixes & content creation
Apr 2024	Link building campaign begins
May 2024	First major results observed
Ongoing	Continuous optimization & reporting

Project Management

-  **Weekly calls** for updates and progress review
-  **Collaborative approach** with client feedback
-  Regular reporting on KPIs: impressions, clicks, web traffic
-  Flexible and responsive to client needs

Key Takeaways & Lessons Learned

Key Takeaways

-  **Comprehensive SEO approach** (technical + content + links) delivers superior results
-  **Regular communication** and reporting builds trust and ensures alignment
-  **Understanding client's business** and industry is crucial for success
-  **Technical expertise + content creation** is a valuable differentiator
-  **Consistent monitoring** and optimization leads to continuous improvement

Lessons Learned

Clear Expectations

Establish deliverables and scope from the beginning to avoid misunderstandings

Customized Reporting

Tailored reporting formats significantly improve client satisfaction

Flexibility

Adaptability to client needs is key to building successful partnerships

Team Expertise

Project management skills are as important as technical capabilities

Long-term Partnerships

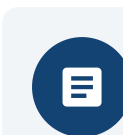

Ongoing engagements yield better results than short-term projects
